## SUMMARY

I am currently pursuing a Bachelor's degree in Software Engineering.

I have a strong passion for web development and building scalable applications.

As a mid-level MERN stack developer, I have hands-on experience with MongoDB, Express.js, React, and Node.js.

---

## WORK EXPERIENCE

### Self-Made MERN Stack Developer

As a self-taught MERN stack developer, I have built full-stack web applications from the ground up. One of my key projects includes developing a complete e-commerce platform, featuring user authentication, product management, shopping cart, and order processing functionalities. I handled both frontend (React) and backend (Node.js, Express) development, along with MongoDB for database management. This project reflects my ability to manage full-stack responsibilities and deliver real-world solutions independently.

---

## EDUCATION

### Pre-Engineering

Sep 2020- Oct 2022

HIMS DEGREE COLLEGE Peshawar

- Completed Pre-Engineering from HIMS College Peshawar with a strong focus on Mathematics and Physics.
- Built analytical and problem-solving skills for a software engineering career.

### Bachelor in Software engineering

Aug 2023 - Aug 2027

Sarhad university of science and IT Peshawar

- Relevant coursework in Data Structures, Web Programming, and Software Development.

---

## ADDITIONAL INFORMATION

- **Technical Skills:** JavaScript, HTML, CSS, React, Node.js, Express, MongoDB, MERN Stack, HTML5, CSS3, JavaScript (ES6+), Responsive Design, Bootstrap, Material-UI, MongoDB, MySQL
- **Languages:** English, Urdu, Pashto
