📍 Peshawar, Pakistan

SUMMARY

Pursuing a Bachelor's in Software Engineering at Sarhad University. Passionate about full-stack web development and AI. Mid-level MERN Stack developer with hands-on experience in MongoDB, Express.js, React, and Node.js, plus professional training in Generative AI and Machine Learning.

TECHNICAL SKILLS

Web

- React.js
- Node.js
- Express.js
- MongoDB
- Tailwind CSS
- ShadCN UI

AI / ML

- Python
- Machine Learning
- Deep Learning
- Generative AI
- Data Preprocessing
- Model Evaluation

Tools

- REST APIs
- JWT Auth
- Git / GitHub
- Problem Solving

LANGUAGES

- English
- Urdu
- Pashto

EDUCATION

Bachelor in Software Engineering

Sarhad University of Science & IT
08/2023 – 08/2027 | Peshawar

- Data Structures & Algorithms
- Web Programming
- Software Development

CAREER OBJECTIVE

Motivated Software Engineering student seeking a part-time or full-time position where I can apply my expertise in MERN Stack development and Generative AI while gaining professional industry experience and contributing to organizational success.

WORK EXPERIENCE

MERN Stack Developer

Self-Made / Project-Based (Paid Projects)

Self-taught MERN Stack Developer who has delivered multiple paid client projects, managing the full development lifecycle from UI design to backend API and database.

- Forest Department Dashboard (Paid): Full dashboard with dynamic charts, filters, graphical data representation, and responsive layouts — built with React, Tailwind CSS, Node.js, Express, and MongoDB.
- Full-Stack Law Society Website (Paid): Lawyer profiles, consultation forms, admin panel, and team management. Secure REST APIs with Node.js/Express/MongoDB; modern UI with React and ShadCN UI.
- WSSS Swat Project (Paid – Ongoing): Professional dashboard with real-time data handling, secure APIs, and scalable MERN architecture demonstrating long-term client engagement.
- E-Commerce Platform: Full-featured platform featuring JWT authentication, product management, shopping cart, checkout & order processing, and a comprehensive admin dashboard.

INTERNSHIP EXPERIENCE

MERN Stack Intern

Ease Teach Software House, Saddar Deans | 6 Months

- Built and maintained frontend interfaces using React.js with clean, reusable component architecture.
- Integrated and tested backend APIs with Node.js & Express, ensuring reliable data flow.
- Performed full CRUD operations using MongoDB with proper schema design.
- Improved UI/UX and resolved bugs across multiple production features.
- Practiced version control with Git and collaborated within an Agile development team.

TRAINING & CERTIFICATIONS

Generative AI Trainee

Arfa Karim Technology Incubator, Peshawar

- Completed professional training in Generative AI, Machine Learning, and Deep Learning.
- Developed and trained ML models for data analysis and prediction tasks.
- Built Deep Learning models using modern AI frameworks and techniques.
- Performed data preprocessing, model evaluation, and performance optimization.
- Gained hands-on experience with Python and real-world AI problem-solving.
- Executed practical AI projects on diverse real-world datasets.
